Work Experience

Senior Full Stack Engineer (Remote) : May 2020- Present

NDT Global, Houston, TX

- Development of a web page, from conception to testing to deployment in production.
- Created and maintained e-commerce websites, blogs, catalogs, and WordPress websites.
- Packaging and promotional materials
- Upheld brand standards in accordance with corporate policies.
- HTML/5, CSS/3, Bootstrap, jQuery, NPM, and Git were among the workflow tools.
- Proficiency in performance improvement.
- Experience creating e-commerce websites and designing websites for the web.
- Direct client-to-client communication was used to set project parameters, write design work proposals, research competitor websites, decide on website content, create site maps for customer approval, and update clients on project progress.
- Used CSS3 features and HTML5 semantic tags for the development.
- Lead the entire web application development life cycle right from the concept stage to delivery and post-launch support.
- Worked with Page Builders, Divi, Astra, Payment Gateway, Zoho CRM, HubSpot CRM, Google Analytics, Google Search Console.

Senior Full Stack Developer (Remote): April 2015- April 2020

Motorola Solutions, Austin, TX

- Proficient in executing comprehensive design solutions, starting with a detailed project brief.
- Thoroughly examine and debug code for system testing, conducting test transactions to identify and resolve issues.
- Act as a crucial liaison between development teams and project management, ensuring transparent communication about project progress.
- Coordinate effectively with co-developers to streamline development efforts and achieve project goals.
- Extensive experience beyond Laravel, capable of creating, maintaining, and optimizing web applications on various premium service platforms.
- Seamless integration of payment gateways, including linking the PayPal Payment Gateway with Stripe for enhanced transaction capabilities.
- Adherence to industry standards and emphasis on code compliance for optimal device compatibility.
- Skillful creation and verification of test procedures to guarantee the integrity of both external and internal interfaces.
- Versatility in integrating popular tools and platforms such as HubSpot CRM, Mailchimp, and Zoom for enhanced functionality.
- Possess adaptability and a diverse skill set, making me a versatile full stack developer capable of tackling a wide range of challenges.
